September 27, 2010

Jeremy Miller Advances to Top Level of GOP North Stars Program ***SD 31 Republican Reaches ‘North Star’ Status in Clear Path to Victory***

The First Congressional District Republican Party (CD1GOP) announced today that Jeremy Miller (SD31–Fillmore, Houston, and Winona counties) has been designated a North Star in its two tiered GOP North Stars program. By advancing to the top level Miller has proven his ability to build a winning campaign and achieve substantial fundraising goals.

Perkins noted that Miller has traveled across southeastern Minnesota and visited with thousands of families, farmers, small business owners, and retirees. “People seem to share the same concerns. They are simply fed-up, frustrated, and extremely worried about the direction government is taking them” Miller asserted. “The issues people are most concerned about are jobs and excessive government spending. We are at a critical time in our state’s history, with an unprecedented budget deficit. And in order for our state to remain strong and vibrant, we must restore fiscal responsibility and create an economic environment that promotes private sector job growth.”

Jeremy and his wife Janel were born and raised in Southeastern Minnesota. Perkins said, “This is their home, and Jeremy wants to make sure southeast Minnesota remains strong and vibrant, and by entering public service that’s what he’s determined to do. He was raised in a tight knit family where his parents taught him the values of hard work, respect, and honesty. If he wanted something he had to work hard for it, he had to earn it. As a small business owner, Miller has had to make difficult decisions, and he knows what it means to make a payroll. Miller’s education in accounting combined with his background in business provides him with a perspective that is often missing and much needed in the legislature.”

The GOP North Star program was founded in 2010 by CD1 GOP and patterned after the National Republican Congressional Committee “Young Guns” program. It is dedicated to electing open seat and challenger candidates throughout Minnesota’s 1st Congressional District. The North Star status is a symbol that Jeremy Miller is ready take on the failed policies of the past four years.

In conclusion, Perkins said, “We fully intend to win the seat, not for ourselves but for the people of SD31 and southern Minnesota. It is time for the return to common sense government and Jeremy Miller is the perfect fit for this district.”
